DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 and 10-14 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 6182518.

As to claims 1, 4, and 10, JP '518 discloses an apparatus for continuous casting of molten metal comprising electromagnets each comprising an iron core and coil wound over the iron core, being arranged in a facing relation on opposite sides of the mold along the transverse width, and means capable to supply AC current to each coil. The iron core comprise of comb-shaped iron core having comb-teeth. JP '518 also disclose a coil with DC current and a coil for AC current (abstract).

As to claim 2 and 3, JP '518 discloses both AC and DC current are wound on the same core.

As to claim 5, the poles are arranged above the ejection port.

As to claims 11-14, the AC current of JP '518 is capable of generating a single phase and continuous.

Response to Arguments

3. Applicant's arguments with respect to claims 1-5 and 10-14 have been considered but are moot in view of the new ground(s) of rejection.

Applicant argues that JP '518 discloses a three phase and not a single phase. However, examiner respectfully disagrees, since applicant is claiming an apparatus and wherein the three-phase AC current of JP '518 is capable of generating a single phase. Therefore, the claimed invention is not defined over the prior art of record.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
